

Spin-Top World Championship
Koma Taisen In Bangkok
Regulation book

Size of the Spin-Top

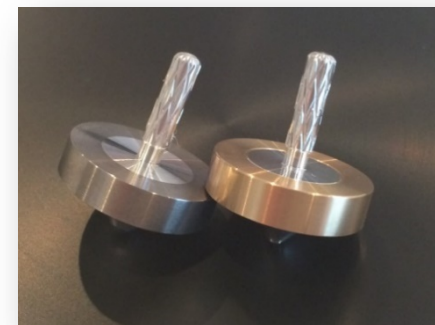

- Diameter of Koma must not be over 20mm.
- Materials, weight and height are not restricted.
- On the competition day, all Komas must be checked by 20.001mm gauge at the registration desk.
- After throwing, Koma's size can be changed while spinning, but it must be back to the original state when stop spinning.
- Only one point of Koma is allowed to touch the ground. The axis of Koma cannot be shifted nor changed while spinning.
- Koma must be produced in Thailand

20.001mm gauge

Transformation Koma

Koma

Basic rule

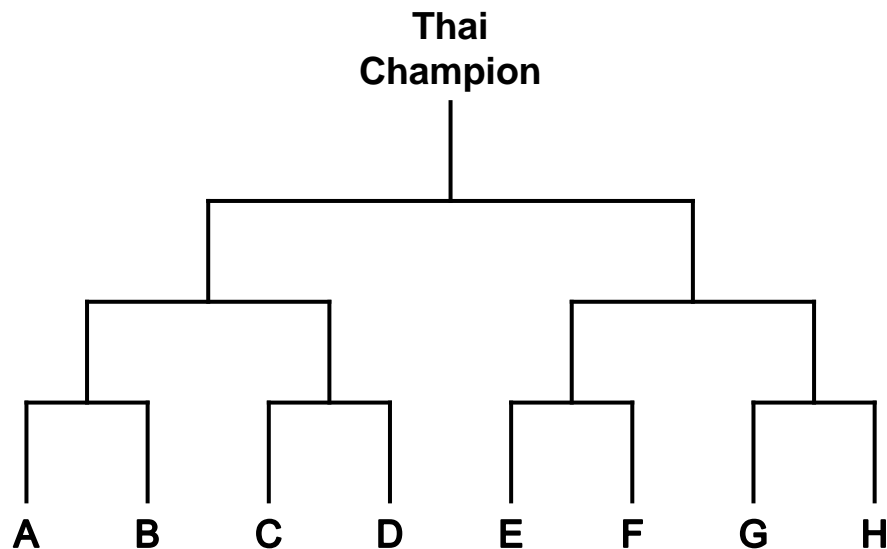

- Referee gives sign to start. Any missed will be up to referee's decision whether to start the game over or not.
- Referee's judgment is final. Objection and complaint are not accepted.
- The last Koma played on 250mm diameter Dohyou is the winner.
- Using only one hand to spin the Koma.
- Out of Dohyou's space or stop spinning will be lost
- Player must be Thai, changing Thai player in the same team is accepted.
- After registered, players are not allowed to touch Komos other than during the matches.
- No change, replace or remodeling Koma during the competition.
- External support or supplement to help Koma spin are not allowed.
- More than 1 point touching the surface of Dohyou is not allowed.
- Using abusive language or violate act will be immediately asked to leave the competition.
- No entry around the area and the edge of Dohyou except referee, players(of the game), executive committee.
✘Because Dohyou and Komos are very small, please watch the game on the large screen near the stage.
- Using league game method for preliminary round and knock out tournament for the final 8 teams. Look at the next page for detail.
